expertlight

GELATO INGREDIENTS

expertlight

Same great taste

Yet low sugars (< 5% sugars)

Low and no calorie sweeteners

Exceptional texture

Guilt-free ice cream

Consumers across the world are adopting healthier lifestyles and diets and cutting down on unwanted or unhealthy components from their diets. This preference towards healthier alternatives has been a major driver of the global sugar-free food and beverages market.

Sugar Free products are a must-have in the portfolio of any manufacturer in any field of the food industry, under the impact of the pressure to reduce sugar consumption and the changing of the European legislation.

For this reason, we have created concepts for light products, which only contain natural sweeteners, for several areas of the food industry: ice cream, pastry and confectionery.

The Expertlight product range represents our proposal for the perfect balance, obtained from the reduction of sugars, without compromising the taste or texture of your favorite desserts.
